

Сведения о научном руководителе диссертации

Ле-Дейген Ирины Михайловны

«Разработка функционализированных липосомальных систем для доставки лекарственных препаратов с использованием разветвленных сополимеров на основе хитозана»

Научный руководитель: Кудряшова Елена Вадимовна

Ученая степень: доктор химических наук

Ученое звание: доцент

Должность: доцент кафедры химической энзимологии химического факультета МГУ.

Место работы: Московский государственный университет имени М.В. Ломоносова, Химический факультет

Адрес места работы: 119192, Москва, Ленинские Горы, 1с11.

Тел.: +7(495)-939-34-34

E-mail: helena_koudriachova@hotmail.com

Список основных научных публикаций по специальности 03.01.06 – биотехнология (в т.ч. бионанотехнологии) за последние 5 лет:
